Job Posting

SAFETY & HEALTH MANAGER San Antonio, TX

Position ID: DAR042106TX San Antonio

Job Category: Manufacturing and Production

Type: Full Time, Employee

Salary: 65,000.00 - 80,000.00 USD /year

Plus vehicle - full benefit package and relocation

Minimum Education: Bachelor's Degree

Our client, a fast growing manufacturing company that will be adding 4-5 new plants within 12 months, is seeking a Safety and Health Manager. You would be responsible for performing a wide range of safety & health tasks to achieve compliance with the Company's Safety & Health Standards and regulatory requirements to support the company vision of "Zero" injuries. You will play a key role in the development and implementation of safety and health programs necessary to ensure a safe and healthy working at 2 plants. You will report directly to the National Safety & Health Manager with dotted line to each plant's GM and Plant Manager.

You must have:

- BS degree or equivalent in Safety & Health or a related technical field
- 3+ years of progressive health and safety program experience in a manufacturing environment
- Working knowledge of safety and health regulations
- Excellent written, verbal, and interpersonal skills--MUST SPEAK ENGLISH AND SPANISH
- Proven analytical and computer skills
- Certified Safety Professional (Preferred) – or ability to obtain certification within 3 years

The company offers a base of \$65,000 to \$80,000, depending on experience, with vehicle, plus full benefit package and relocation. This is a very visible position with a great company with advancement opportunities

IF YOU ARE QUALIFIED and interested in hearing more please email your resume confidentially to drievley@mrichattanoooga.com.

EHS ENGINEER/ASSOCIATE - PHARMACEUTICAL US-TX-STATEWIDE

Job Category: Biotechnology and Pharmaceutical

Type: Full Time, Employee

Our client is recognized globally for their unparalleled semi-solid and liquid technical expertise. They are the first choice for semi-solid and liquid development and manufacturing services for the world's leading pharmaceutical, biotechnology, and healthcare companies.

With four cGMP facilities and over a million square feet of state-of-the-art manufacturing, packaging, and distribution space, our client offers full service outsourcing solutions including stand alone development, site transfers, turnkey production, packaging, and worldwide distribution. Quality is a culture — not a task. This philosophy, which dates back over 60 years, is shared by over 1,000 employees.

The Environmental, Health and Safety Engineer/Associate will implement, train, and audit all aspects of a pharmaceutical manufacturing, laboratory, R&D, packaging and warehousing operations. Included will be:

- Reducing occupational injuries and workers compensation costs through proactive actions.
- Performing incident investigations and industrial hygiene testing
- Implementing facility-wide environmental health and safety programs
- Conducting safety inspections and audits in all operational areas and follow-up on corrective actions as required
- Inserting EHS engineering principles into all new production equipment purchases and proactively reviewing all proposed developmental site work for potential EHS issues
- Maintain and update site-wide environmental permits and safety databases
- Direct emergency response

REQUIREMENTS

- Proven experience as a EHS Engineer working for a pharmaceutical company
- Solid knowledge of OSHA, EPA, and NFPA codes and rules
- Strong organization, communication, training and team orientated skills
- Bachelors Degree

A very competitive compensation, benefit, and relocation package will be offered.

TO APPLY

Attach a word document resume and email research@mchsi.com . Because this position is an immediate need, a daytime contact number is required.
